## **Amarella Perfume Beads Bloomingo**

## SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

L.1 Product identifier: Amarella Perfume Beads Bloomingo

Other means of identification:

Not relevant

1.2 Relevant identified uses of the substance or mixture and uses advised against:

Relevant uses (Consumer use): Fragrance pearls for perfuming laundry.
Uses advised against: All uses not specified in this section or in section 7.3

1.3 Details of the supplier of the safety data sheet:

MB ELIX sp. z oo sp.k. ul. Skarżyńskiego 26 54-530 Wrocław - Poland

Phone: 0048 71 387 85 33 - Fax: 0048 71 722 29 68

lab@elix.pl www.elixscent.com

**1.4 Emergency telephone number:** 0048 71 387 85 33 (8.00-16.00)

## **SECTION 2: HAZARDS IDENTIFICATION**

#### 2.1 Classification of the substance or mixture:

### CLP Regulation (EC) No 1272/2008:

The product is not classified as hazardous according to CLP Regulation (EC) No 1272/2008.

#### 2.2 Label elements:

### CLP Regulation (EC) No 1272/2008:

#### **Hazard statements:**

Not relevant

### **Precautionary statements:**

P101: If medical advice is needed, have product container or label at hand.

P102: Keep out of reach of children.

P501: Dispose of contents/container according to the separated collection system used in your municipality.

# **Supplementary information:**

EUH208: Contains hexyl cinnamaldehyde, 2-benzylideneheptanal, hydroxycitronellal, linalool, benzyl salicylate. May produce an allergic reaction.

#### 2.3 Other hazards:

Product does not meet PBT/vPvB criteria

Endocrine-disrupting properties: The product does not meet the criteria.

## SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

### 3.1 Substance:

Not relevant

#### 3.2 Mixture:

**Chemical description:** Mixture composed of chemical products

#### Components:

In accordance with Annex II of Regulation (EC) No 1907/2006 (point 3), the product contains:

|      | Identification  |                      | Chemical name/Classification  |                 |                  |
|------|---|----------------------|---|-----------------|------------------|

<sup>(1)</sup> Substances presenting a health or environmental hazard which meet criteria laid down in Regulation (EU) No. 2020/878

To obtain more information on the hazards of the substances consult sections 11, 12 and 16.

Acute toxicity estimate for the substance in Part 3 of Annex VI to Regulation (EC) No 1272/2008 or as determined in accordance with Annex I to that Regulation:

| Identification                | Acute toxicit                     | Genus        |     |
|-------------------------------|-----------------------------------|--------------|-----|
| Linalool                      | LD50 oral                         | 3500 mg/kg   | Rat |
| CAS: 78-70-6<br>EC: 201-134-4 | LD50 dermal                       | Not relevant |     |
|                               | LC50 inhalation dust Not relevant |              |     |

## **SECTION 4: FIRST AID MEASURES**

#### 4.1 Description of first aid measures:

The symptoms resulting from intoxication can appear after exposure, therefore, in case of doubt, seek medical attention for direct exposure to the chemical product or persistent discomfort, showing the SDS of this product.

#### By inhalation

This product does not contain substances classified as hazardous for inhalation, however, in case of symptoms of intoxication remove the person affected from the exposure area and provide with fresh air. Seek medical attention if the symptoms get worse or persist.

# By skin contact:

This product is not classified as hazardous when in contact with the skin. However, in case of skin contact it is recommended to remove contaminated clothes and shoes, rinse the skin or if necessary shower the affected person thoroughly with cold water and neutral soap. In case of serious reaction consult a doctor.

## By eye contact:

Rinse eyes thoroughly with water for at least 15 minutes. If the injured person uses contact lenses, these should be removed unless they are stuck to the eyes, in which case removal could cause further damage. In all cases, after cleaning, a doctor should be consulted as quickly as possible with the SDS for the product.

### By ingestion/aspiration:

Do not induce vomiting, but if it does happen keep the head down to avoid aspiration. Keep the person affected at rest. Rinse out the mouth and throat, as they may have been affected during ingestion.

#### 4.2 Most important symptoms and effects, both acute and delayed:

Acute and delayed effects are indicated in sections 2 and 11.

### 4.3 Indication of any immediate medical attention and special treatment needed:

Not relevant

# **SECTION 5: FIREFIGHTING MEASURES**

### 5.1 Extinguishing media:

Suitable extinguishing media:

This SDS is an English translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

### **Amarella Perfume Beads Bloomingo**

### SECTION 5: FIREFIGHTING MEASURES (continued)

Product is non-flammable under normal conditions of storage, handling and use. In the case of combustion as a result of improper handling, storage or use preferably use polyvalent powder extinguishers (ABC powder), in accordance with the Regulation on fire protection systems.

### Unsuitable extinguishing media:

Non-applicable

### 5.2 Special hazards arising from the substance or mixture:

As a result of combustion or thermal decomposition reactive sub-products are created that can become highly toxic and, consequently, can present a serious health risk.

#### 5.3 Advice for firefighters:

Depending on the magnitude of the fire it may be necessary to use full protective clothing and Self Contained Breathing Apparatus. Minimum emergency facilities and equipment should be available (fire blankets, portable first aid kit,...)

#### Additional provisions:

Act in accordance with the Internal Emergency Plan and the Information Sheets on actions to take after an accident or other emergencies. Eliminate all sources of ignition. In case of fire, cool the storage containers and tanks for products susceptible to combustion, explosion or BLEVE as a result of high temperatures. Avoid spillage of the products used to extinguish the fire into an aqueous medium.

#### SECTION 6: ACCIDENTAL RELEASE MEASURES

#### 6.1 Personal precautions, protective equipment and emergency procedures:

#### For non-emergency personnel:

Sweep up and shovel product or collect by other means and place in container for reuse (preferred) or disposal

#### For emergency responders:

Wear protective equipment. Keep unprotected persons away. See section 8.

#### 6.2 Environmental precautions:

It is recommended to avoid environmental spillage of both the product and its container.

### 6.3 Methods and material for containment and cleaning up:

It is recommended

Sweep up and shovel product or collect by other means and place in container for reuse (preferred) or disposal

## 6.4 Reference to other sections:

See sections 8 and 13.

# SECTION 7: HANDLING AND STORAGE

### 7.1 Precautions for safe handling:

A.- General precautions for safe use

Comply with the current legislation concerning the prevention of industrial risks with regards manually handling weights. Maintain order, cleanliness and dispose of using safe methods (section 6).

B.- Technical recommendations for the prevention of fires and explosions

Due to its non-inflammable nature, the product does not present a fire risk under normal conditions of storage, handling and use.

C.- Technical recommendations on general occupational hygiene

Do not eat or drink during the process, washing hands afterwards with suitable cleaning products.

D.- Technical recommendations to prevent environmental risks

Preferably use aspiration for cleaning. Given the danger of the product by inhalation, any cleaning method that involves exposure to the product in this way (sweeping, etc.) is not recommended

# 7.2 Conditions for safe storage, including any incompatibilities:

A.- Specific storage requirements

Minimum Temp.: 5 °C

Maximum Temp.: 35 °C

Maximum time: 36 Months

Date of compilation: 16/04/2025 Version: 1 Page 3/11

## This SDS is an English translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

# **Amarella Perfume Beads Bloomingo**

# SECTION 7: HANDLING AND STORAGE (continued)

## B.- General conditions for storage

Avoid sources of heat, radiation, static electricity and contact with food. For additional information see subsection 10.5

### 7.3 Specific end use(s):

Except for the instructions already specified it is not necessary to provide any special recommendation regarding the uses of this product.

# SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

## 8.1 Control parameters:

Substances whose occupational exposure limits have to be monitored in the workplace (European OEL, not country-specific legislation):

Nuisance dust: Inhalable dust 10 mg/m3 // Respirable dust 4 mg/m3

# **DNEL (Workers):**

# 8.2 Exposure controls:

A.- Individual protection measures, such as personal protective equipment

This SDS is an English translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

## **Amarella Perfume Beads Bloomingo**

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION (continued)

As a preventative measure it is recommended to use basic Personal Protective Equipment, with the corresponding <<CE marking>> in accordance with Regulation (EU) 2016/425. For more information on Personal Protective Equipment (storage, use, cleaning, maintenance, class of protection,...) consult the information leaflet provided by the manufacturer. For more information see subsection 7.1. All information contained herein is a recommendation which needs some specification from the labour risk prevention services as it is not known whether the company has additional measures at its disposal.

#### B.- Respiratory protection

If the working conditions and/or safety measures adopted do not allow keeping the airborne concentration of the product below the exposure limits (if any) or at acceptable levels (if no exposure limits exist), suitable respiratory protection equipment chosen by a qualified professional should be used.

#### C.- Specific protection for the hands

| Pictogram                 | PPE                                      | Labelling | CEN Standard | Remarks  |
|---------------------------|--|-----------|--------------|--|
| Mandatory hand protection | Protective gloves against<br>minor risks | CATI      |              | Replace gloves in case of any sign of damage. For prolonged periods of exposure to the product for professional users/industrials, we recommend using CE III gloves in line with standards EN ISO 21420:2020 and EN ISO 374-1:2016+A1:2018 |

As the product is a mixture of several substances, the resistance of the glove material can not be calculated in advance with total reliability and has therefore to be checked prior to the application.

### D.- Eye and face protection

| Pictogram                 | PPE  | Labelling | CEN Standard                    | Remarks   |
|---------------------------|--|-----------|---------------------------------|---|
| Mandatory face protection | Panoramic glasses against<br>splash/projections. | CATII     | EN 166:2002<br>EN ISO 4007:2018 | Clean daily and disinfect periodically according to the manufacturer's instructions. Use if there is a risk of splashing. |

#### E.- Body protection

| Pictogram | PPE                  | Labelling | CEN Standard      | Remarks   |
|-----------|----------------------|-----------|-------------------|---|
|           | Work clothing        | CATI      |                   | Replace before any evidence of deterioration. For periods of prolonged exposure to the product for professional/industrial users CE III is recommended, in accordance with the regulations in EN ISO 6529:2013, EN ISO 6530:2005, EN ISO 13688:2013, EN 464:1994. |
|           | Anti-slip work shoes | CATII     | EN ISO 20347:2022 | Replace before any evidence of deterioration. For periods of prolonged exposure to the product for professional/industrial users CE III is recommended, in accordance with the regulations in EN ISO 20345:2022 y EN 13832-1:2019                                 |

# F.- Additional emergency measures

It is advised to implement additional emergency equipments in workplaces that are particularly exposed to the product or in situations where risk assessments highlight the necessity of such equipments.

| Emergency measure | Standards                                       | Emergency measure | Standards                                      |
|-------------------|---|-------------------|--|
| Emergency shower  | ANSI Z358-1<br>ISO 3864-1:2011, ISO 3864-4:2011 | Eyewash stations  | DIN 12 899<br>ISO 3864-1:2011, ISO 3864-4:2011 |

### **Environmental exposure controls:**

To comply with environmental protection regulations, it is recommended to prevent any spillage of the product and its container. For more detailed information, please refer to subsection 7.1.D.

# SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties:

For complete information see the product datasheet.

### Appearance:

Physical state at 20 °C:

Solid

\*Not relevant due to the nature of the product, not providing information property of its hazards.

## SECTION 10: STABILITY AND REACTIVITY

#### 10.1 Reactivity:

No hazardous reactions are expected because the product is stable under recommended storage conditions. See section 7 from Safety Data Sheet.

#### 10.2 Chemical stability:

Chemically stable under the indicated conditions of storage, handling and use.

### 10.3 Possibility of hazardous reactions:

Under the specified conditions, hazardous reactions that lead to excessive temperatures or pressure are not expected.

#### 10.4 Conditions to avoid:

Applicable for handling and storage at room temperature:

| Shock and friction | Contact with air | Increase in temperature | Sunlight       | Humidity       |
|--------------------|------------------|-------------------------|----------------|----------------|
| Not applicable     | Not applicable   | Not applicable          | Not applicable | Not applicable |

#### 10.5 Incompatible materials:

| Acids              | Water          | Oxidising materials | Combustible materials | Others                        |
|--------------------|----------------|---------------------|-----------------------|-------------------------------|
| Avoid strong acids | Not applicable | Not applicable      | Not applicable        | Avoid alkalis or strong bases |

#### 10.6 Hazardous decomposition products:

See subsection 10.3, 10.4 and 10.5 to find out the specific decomposition products. Depending on the decomposition conditions, complex mixtures of chemical substances can be released: carbon dioxide (CO<sub>2</sub>), carbon monoxide and other organic compounds.

#### SECTION 11: TOXICOLOGICAL INFORMATION

### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008:

The experimental information related to the toxicological properties of the product itself is not available

### **Dangerous health implications:**

In case of exposure that is repetitive, prolonged or at concentrations higher than the recommended occupational exposure limits, adverse effects on health may result, depending on the means of exposure:

- A- Ingestion (acute effect):
  - Acute toxicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for consumption. For more information see section 3
  - Corrosivity/Irritability: Based on available data, the classification criteria are not met. However, it does contain substances classified as hazardous for this effect. For more information see section 3.
- B- Inhalation (acute effect):
  - Acute toxicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for inhalation. For more information see section 3.
  - Corrosivity/Irritability: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.
- C- Contact with the skin and the eyes (acute effect):
  - Contact with the skin: Based on available data, the classification criteria are not met. However, it contains substances classified as hazardous for skin contact. For more information see section 3.
  - Contact with the eyes: Based on available data, the classification criteria are not met. However, it does contain substances classified as hazardous for this effect. For more information see section 3.
- D- CMR effects (carcinogenicity, mutagenicity and toxicity to reproduction):
  - Carcinogenicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for the effects mentioned. For more information see section 3.
    - IARC: Benzyl acetate (3)
  - Mutagenicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.
  - Reproductive toxicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.
- E- Sensitizing effects:

This SDS is an English translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

### **Amarella Perfume Beads Bloomingo**

## SECTION 11: TOXICOLOGICAL INFORMATION (continued)

- Respiratory: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous with sensitising effects. For more information see section 3.
- Skin: Based on available data, the classification criteria are not met. However, it contains substances classified as dangerous with sensitising effects. For more information see section 3.
- F- Specific target organ toxicity (STOT) single exposure:

Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

- G- Specific target organ toxicity (STOT)-repeated exposure:
  - Specific target organ toxicity (STOT)-repeated exposure: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.
  - Skin: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.
- H- Aspiration hazard:

Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

#### Other information:

Not relevant

### Specific toxicology information on the substances:

| Identification        | Acute toxici           | ty          | Genus  |
|-----------------------|------------------------|-------------|--------|
| Hexyl cinnamaldehyde  | LD50 oral              | 3100 mg/kg  | Rat    |
| CAS: 101-86-0         | LD50 dermal            | 3000 mg/kg  | Rabbit |
| EC: 202-983-3         | LC50 inhalation        |             |        |
|                       | LC50 inhalation vapour |             |        |
| 2-benzylideneheptanal | LD50 oral              | 3730 mg/kg  | Rat    |
| CAS: 122-40-7         | LD50 dermal            |             |        |
| EC: 204-541-5         | LC50 inhalation        |             |        |
|                       | LC50 inhalation vapour |             |        |
| Linalool              | LD50 oral              | 3500 mg/kg  | Rat    |
| CAS: 78-70-6          | LD50 dermal            | 5610 mg/kg  | Rabbit |
| EC: 201-134-4         | LC50 inhalation        |             |        |

| Benzyl salicylate     | LD50 oral              | 2200 mg/kg  | Rat    |
| CAS: 118-58-1         | LD50 dermal            | 14150 mg/kg | Rabbit |
| EC: 204-262-9         | LC50 inhalation        |             |        |
|                       | LC50 inhalation dust   |             |        |

## 11.2 Information on other hazards:

### **Endocrine disrupting properties**

Endocrine-disrupting properties: The product does not meet the criteria.

## Other information

Not relevant

# SECTION 12: ECOLOGICAL INFORMATION

The experimental information related to the eco-toxicological properties of the product itself is not available

Based on available data, the classification criteria are not met. However, it does contain substances classified as hazardous for this effect. For more information see section 3.

## 12.1 Toxicity:

# Acute toxicity:

# This SDS is an English translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

# **Amarella Perfume Beads Bloomingo**

# SECTION 12: ECOLOGICAL INFORMATION (continued)

| Identification        |      | Concentration        | Species                   | Genus      |
|-----------------------|------|----------------------|---------------------------|------------|
| Hexyl cinnamaldehyde  | LC50 | >0.1 - 1 mg/L (96 h) |                           | Fish       |
| CAS: 101-86-0         | EC50 | >0.1 - 1 mg/L (48 h) |                           | Crustacean |
| EC: 202-983-3         | EC50 | >0.1 - 1 mg/L (72 h) |                           | Algae      |
| 2-benzylideneheptanal | LC50 | 0,91 mg/L (96 h)     | N/A                       | Fish       |
| CAS: 122-40-7         | EC50 | 0,28 mg/L (48 h)     | Daphnia magna             | Crustacean |
| EC: 204-541-5         | EC50 | Not relevant         |                           |            |
| Benzyl salicylate     | LC50 | 1,03 mg/L (96 h)     | Brachydanio rerio         | Fish       |
| CAS: 118-58-1         | EC50 | 1,2 mg/L (48 h)      | Daphnia magna             | Crustacean |
| EC: 204-262-9         | EC50 | 1,3 mg/L (72 h)      | Selenastrum capricornutum | Algae      |

# 12.2 Persistence and degradability:

# **Substance-specific information:**

| Identification        | Deg      | radability   | Biodegradability |          |
|-----------------------|----------|--------------|------------------|----------|
| 2-benzylideneheptanal | BOD5     | Not relevant | Concentration    | 100 mg/L |
| CAS: 122-40-7         | COD      | Not relevant | Period           | 28 days  |
| EC: 204-541-5         | BOD5/COD | Not relevant | % Biodegradable  | 90 %     |
| Linalool              | BOD5     | Not relevant | Concentration    | 100 mg/L |
| CAS: 78-70-6          | COD      | Not relevant | Period           | 28 days  |
| EC: 201-134-4         | BOD5/COD | Not relevant | % Biodegradable  | 90 %     |
| Benzyl salicylate     | BOD5     | Not relevant | Concentration    | 100 mg/L |
| CAS: 118-58-1         | COD      | Not relevant | Period           | 28 days  |
| EC: 204-262-9         | BOD5/COD | Not relevant | % Biodegradable  | 93 %     |

## 12.3 Bioaccumulative potential:

## **Substance-specific information:**

| Identification        | Bioa      | Bioaccumulation potential |  |
|-----------------------|-----------|---------------------------|--|
| Hexyl cinnamaldehyde  | BCF       | 17                        |  |

| CAS: 118-58-1         | Pow Log   | 4                         |  |
| EC: 204-262-9         | Potential | High                      |  |

# 12.4 Mobility in soil:

| Identification        | Absorption/desorption |              | Volatility |              |
|-----------------------|-----------------------|--------------|------------|--------------|
| 2-benzylideneheptanal | Koc                   | 974.98       | Henry      | Not relevant |
| CAS: 122-40-7         | Conclusion            | Moderate     | Dry soil   | Not relevant |
| EC: 204-541-5         | Surface tension       | Not relevant | Moist soil | Not relevant |
| Benzyl salicylate     | Koc                   | 5600         | Henry      | Not relevant |
| CAS: 118-58-1         | Conclusion            | Immobile     | Dry soil   | Not relevant |
| EC: 204-262-9         | Surface tension       | Not relevant | Moist soil | Not relevant |

# 12.5 Results of PBT and vPvB assessment:

Product does not meet PBT/vPvB criteria

# 12.6 Endocrine disrupting properties:

Endocrine-disrupting properties: The product does not meet the criteria.

# 12.7 Other adverse effects:

Not described

This SDS is an English translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

### **Amarella Perfume Beads Bloomingo**

## SECTION 13: DISPOSAL CONSIDERATIONS

#### 13.1 Waste treatment methods:

| Code     | Description                                       | Waste class (Regulation (EU) No<br>1357/2014) |
|----------|---|---|
| 20 01 30 | detergents other than those mentioned in 20 01 29 | Non-hazardous                                 |

#### Type of waste (Regulation (EU) No 1357/2014):

Not relevant

#### Waste management (disposal and evaluation):

Consult the authorized waste service manager on the assessment and disposal operations in accordance with Annex 1 and Annex 2 (Directive 2008/98/EC). As under 15 01 (2014/955/EC) of the code and in case the container has been in direct contact with the product, it will be processed the same way as the actual product. Otherwise, it will be processed as non-hazardous residue. Waste should not be disposed of to drains. See paragraph 6.2.

#### Regulations related to waste management:

In accordance with Annex II of Regulation (EC) No 1907/2006 (REACH) the community or state provisions related to waste management are stated

Community legislation: Directive 2008/98/EC, 2014/955/EU, Regulation (EU) No 1357/2014

## **SECTION 14: TRANSPORT INFORMATION**

This product is not regulated for transport (ADR/RID,IMDG,IATA)

### **SECTION 15: REGULATORY INFORMATION**

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:

- Article 95, REGULATION (EU) No 528/2012: Not relevant
- Candidate substances for authorisation under the Regulation (EC) No 1907/2006 (REACH): Not relevant
- Regulation (EU) 2019/1021 on persistent organic pollutants: Not relevant
- Regulation (EU) No 2024/590, about substances that deplete the ozone layer: Not relevant
- REGULATION (EU) No 649/2012, in relation to the import and export of hazardous chemical products: Not relevant
- Substances included in Annex XIV of REACH ("Authorisation List") and sunset date: Not relevant

### Regulation (EC) No 648/2004 on detergents:

In accordance with this regulation the product complies with the following:

### Labelling for contents:

| 1 | Component |
|---|-----------|
| ļ | perfumes  |

Allergenic fragrances: 2-benzylideneheptanal (AMYL CINNAMAL), 3-Methyl-4-(2,6,6-trimethyl-2-cyclohexen-1-yl)-3-buten-2-one (alpha-ISOMETHYL IONONE), benzyl alcohol (BENZYL ALCOHOL), Benzyl salicylate (BENZYL SALICYLATE), Citronellol (CITRONELLOL), Geraniol (GERANIOL), Hexyl cinnamaldehyde (HEXYL CINNAMAL), Hydroxycitronellal (HYDROXYCITRONELLAL), Linalool (LINALOOL), Linalyl acetate (LINALYL ACETATE), Methyl salicylate (METHYL SALICYLATE), Terpineol (TERPINEOL).

Limitations to commercialisation and the use of certain dangerous substances and mixtures (Annex XVII REACH, etc ....):

Not relevant

### Specific provisions in terms of protecting people or the environment:

It is recommended to use the information included in this safety data sheet as a basis for conducting workplace-specific risk assessments in order to establish the necessary risk prevention measures for the handling, use, storage and disposal of this product.

### Other legislation:

The product could be affected by sectorial legislation

- Regulation (EC) No 1223/2009 of the European Parliament and of the Council of 30 November 2009 on cosmetic products
- Regulation (EC) No 648/2004 of the European Parliament and of the Council of 31 March 2004 on detergents
- Commission Regulation (EC) No 907/2006 of 20 June 2006 amending Regulation (EC) No 648/2004 of the European Parliament and of the Council on detergents, in order to adapt Annexes III and VII
- Commission Regulation (EC) No 551/2009 of 25 June 2009 amending Regulation (EC) No 648/2004 of the European Parliament and of the Council on detergents, in order to adapt Annexes V and VI thereto (surfactant derogation)

This SDS is an English translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

# **Amarella Perfume Beads Bloomingo**

## SECTION 15: REGULATORY INFORMATION (continued)

#### 15.2 Chemical safety assessment:

The supplier has not carried out evaluation of chemical safety.

### **SECTION 16: OTHER INFORMATION**

#### Legislation related to safety data sheets:

The SDS shall be supplied in an official language of the country where the product is placed on the market. This safety data sheet has been designed in accordance with ANNEX II-Guide to the compilation of safety data sheets of Regulation (EC) No 1907/2006 (COMMISSION REGULATION (EU) 2020/878).

# Modifications related to the previous Safety Data Sheet which concerns the ways of managing risks.:

Not relevant

#### Texts of the legislative phrases mentioned in section 3:

The phrases indicated do not refer to the product itself; they are present merely for informative purposes and refer to the individual components which appear in section 3

### CLP Regulation (EC) No 1272/2008:

Aguatic Acute 1: H400 - Very toxic to aguatic life.

Aquatic Chronic 2: H411 - Toxic to aquatic life with long lasting effects. Aquatic Chronic 3: H412 - Harmful to aquatic life with long lasting effects.

Eye Irrit. 2: H319 - Causes serious eye irritation. Skin Irrit. 2: H315 - Causes skin irritation.

Skin Sens. 1B: H317 - May cause an allergic skin reaction.

### Classification procedure:

Not relevant

#### Advice related to training:

Training is recommended in order to prevent industrial risks for staff using this product and to facilitate their comprehension and interpretation of this safety data sheet, as well as the label on the product.

### Principal bibliographical sources:

http://echa.europa.eu http://eur-lex.europa.eu

#### Abbreviations and acronyms:

ADR: European agreement concerning the international carriage of dangerous goods by road

IMDG: International maritime dangerous goods code

IATA: International Air Transport Association ICAO: International Civil Aviation Organisation

COD: Chemical Oxygen Demand

BOD5: 5day biochemical oxygen demand

BCF: Bioconcentration factor LD50: Lethal Dose 50 LC50: Lethal Concentration 50

EC50: Effective concentration 50 LogPOW: Octanolwater partition coefficient Koc: Partition coefficient of organic carbon

UFI: unique formula identifier

IARC: International Agency for Research on Cancer

The information contained in this safety data sheet is based on sources, technical knowledge and current legislation at European and state level, without being able to guarantee its accuracy. This information cannot be considered a guarantee of the properties of the product, it is simply a description of the security requirements. The occupational methodology and conditions for users of this product are not within our awareness or control, and it is ultimately the responsibility of the user to take the necessary measures to obtain the legal requirements concerning the manipulation, storage, use and disposal of chemical products. The information on this safety data sheet only refers to this product, which should not be used for needs other than those specified.
